PROFESSIONAL SUMMARY

Detail-oriented mobile developer and design technologist. It is a passion of mine to create experiences that connect the user to their device. Placing a strong emphasis on usability and design, I seek to create pleasant and intuitive user experiences that are up to date, engaging, and easy to use. I understand the value and importance of creating readable and reusable code that is easy to maintain and efficient. I constantly strive to challenge myself and learn new technologies to improve my skills in this rapidly changing industry.

HIGHLIGHTS

- 4 years professional iOS developer experience.
- Solid understanding of iOS platform and mobile development concepts
- I work well without direction and constantly keep project managers up-to-date on problems and progress
- Focused and organized
- Eye for design

TECHNICAL SKILLS

- **Languages:** Swift, Java, Node JS, JavaScript, HTML
- **Other Skills:** UI/UX Design, Sketch, Figma, Zeplin, Framer X, Android Development, Video Editing, Graphic Designing
- **Personal:** Creative, Communicates Well, Team Player, Hard Worker

EXPERIENCE

Bleacher Report

San Francisco, CA

iOS Engineer III (Remote)

6/19 - Present

- Deliver well-designed, maintainable solutions.
- Produce high-quality software that is unit tested, code reviewed and checked in regularly for continuous integration

- Work on solving user problems and issues within project timelines
- Collaborate with project managers, engineers, designers, and QA analysts.
- Work with a multidisciplinary team in an agile and fast-paced development environment
- Created tools to improve developers and testers workflows

Proteus Digital Health

Redwood City, CA

iOS Design Technologist

10/17 - 5/19

- Bridge the gap between design and mobile software engineering teams
- Provide feedback in the design process of the opportunities and limitations of the iOS platform
- Develop, prototype, and test the user interface layer
- Guide and mentor software engineers working on the user interface layer
- Work with a multidisciplinary team in an agile and fast paced development environment
- Execute all development projects in compliance with company and regulatory guidelines.
- Created multiple tools to improve developers and testers workflows
- Received multiple awards for participation and quality of work

Banyan Hills Technologies

Duluth, GA

Software Engineer

5/16 - 10/17

- Lead iOS and Android developer
- Designed and developed multiple POS (Point of Service) applications to use in the field.
- Worked with credit card readers
- Consume multiple RESTful Web Services to pull data and monitor the device active status and different KPIs
- Redesigned and implemented multiple applications from the ground up to enhance usability and experience
- Recode an entire application to migrate from Objective-C to Swift.
- Integrated Fabric IO and Google analytics for reporting and assessment needs.
- Manage multiple projects occurring simultaneously and met deadlines established.
- Participated in roadmap planning and setting deadlines.
- Created an Uber-like application that allows users to earn free rides.

START-UPS

PushTek

Norcross, GA

Mobile Developer

10/15 - 12/16

- Went from idea to app by planning and delivering on multiple deadlines
- Designed and developed the app from scratch with no existing code
- Included user management, photo and video capture capabilities, push notifications, messaging, and location integrations.
- Used Google Maps for place data and site information
- Configured backend for the application

Dibbly

Atlanta, GA

Mobile Developer

10/14 - 5/15

- Sole developer for a small startup company.
- Designed and developed the app from scratch with no existing code
- Feature-rich design with a resemblance to Tinder or Meet Me.
- Use Firebase to solve for real-time features
- Use Parse for DB and to allow for a robust management dashboard.
- Created algorithms to provide optimal matches based on interests.

PERSONAL PROJECTS

GymBolt – iOS

On App Store - <https://itunes.apple.com/us/app/gymbolt-motivation-to-move/id1329098251>

- Created GymBolt to redefine the way we interact with members at our gym. Users are able to find their gym and interact with members around them
- Integrate Google Maps and Places to provide context and information on different gyms.
- Create custom views and dialogs to maintain a cohesive user experience
- Implement custom permission control to help the user feel at ease.

MicWriter – iOS

On App Store - <https://itunes.apple.com/us/app/micwriter-just-talk/id1330358106>

- Created MicWriter to be able to vocally “write” papers and essay. Instead of writing long essays by hand, users are able to simply talk out their papers or essays.
- Use iOS’s speech to text technology to provide robust translation

Popiio – iOS

On App Store - <https://itunes.apple.com/us/app/popiiio/id1338615245>

- Created Popiio to allow anyone to send notifications anywhere, anytime, to anyone in their contacts.
- Used Core Location to determine user location and send them notifications when they arrive/leave a preset location
- Schedule notifications by time
- Used interactive animations to improve the user experience.

OTHER PROFESSIONAL EXPERIENCE

AAA Design Studios - Freelance

Development and Graphic Designer

2010 - 2016

- Provided many diverse solutions to clients over a wide variety of design and development disciplines
- Optimized time management over a variety of project, sometimes occurring simultaneously

Royal Lounge (Contract)

Web Development / Graphic Design

8/15 - 3/16

- Created and managed company website
- Create content for social media and other marketing materials.

Arkla Conference

Director of Video Editing / Photography

6/13 - 8/15

- Created multiple video content for youth center summarizing the highlights each week.
- Managed a team to maximize results and maintain morale and positivity.
- Met tight deadlines and performed extremely well under pressure.

EDUCATION

Bachelors of Information Technology w/ Concentration in Mobile & Web, Kennesaw State University 2019
